

# Pacific States

ENVIRONMENTAL CONTRACTORS, INC.

## Water Treatment SOLUTIONS

Pacific States, Northern California's premier signatory environmental contractor, can take care of all your site's water handling needs.

We offer a full menu of services for all of your temporary construction needs for groundwater and stormwater. Contaminants we treat include suspended and dissolved solids, hydrocarbons, heavy metals, PCBs and PFAS.

From trailer-mounted units to fully customized systems, PSEC has the experience and resources to provide the right equipment for each water treatment application.

***We are available to work with you and your consultants to manage all your water management needs.***

## SERVICES

- Permitting/system design
- Coordination and interfacing with regulatory agencies
- Turnkey installation and operation
- Treatment for a complete range of flow volumes
- Testing, waste profiling and disposal
- Complete documentation and regulatory compliance
